Subject: 082611 DWR Corps Meeting Follow-up

Mike - Thanks for meeting with us today. As promised, attached is the most recent timeline, in both summary and expanded form. I've also included a diagram that shows the review process for the EIR deliverables. The dates in this one are specific to the work plan, but the process will be the same.

I appreciate you sharing information on the MOU. I think it was generally agreed that the term "initial projects" or something along that line will allow greater flexibility in the permitting process.

Also, it was helpful for us to get a sense of your general information needs for the permit process. It sounds like we can start by providing you with the assumptions for the baseline and future conditions. As additional needs are identified we can arrange to provide that information. I would like to work with you to set up working group meetings to help facilitate information sharing.

Lastly, I identified the following action items from the meeting:

- \* Cassandra - Send out the EIR/S timeline and review process diagram (done)
- \* Mike and Cassandra - Schedule pre-meeting calls (done)
- \* Mike - Develop a preliminary list of information needs

- \* Ken - Provide Mike with assumptions for baseline and future conditions
- \* Cassandra - Ask Russ to send Mike a table of models that were used for the EIR/S
- \* All - Review Marc's proposed framework document for discussion next Thursday
- \* Mike - Check with Corps staff for days/times that would work well for workgroup meetings

Please let me know if I missed anything. Have a good weekend, Cassandra

Cassandra Enos-Nobriga
